SECTION 4: First aid measu	res
4.1. Description of first aid m	easures
General information	In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible). Advice for Medical Doctors: Brodifacoum is an indirect anti-coagulant. Phytomenadione, Vitamin K, is antidotal. Determin prothrombin time not less than 18 hours after consumption. If elevated, administer Vitamin K1 until prothrombin time normalises. Continue determination of prothrombin time for two weeks after withdrawal of antidote and resume treatment if elevation occurs in that time.
Inhalation	Due to the physical nature of this product, exposure by this route is unlikely. Seek medical attention if symptoms persist.

Ingestion Rinse mouth. Do not induce vomiting. Get medical attention immediately.

- Skin contactMay cause irritation to susceptible persons. If skin irritation occurs wash with soap and water.Remove contaminated clothing. Get medical attention if symptoms are severe or persist.
- **Eye contact** May cause eye irritation to susceptible persons. Rinse immediately with plenty of water and seek medical advice.

### 4.2. Most important symptoms and effects, both acute and delayed

4.3. Indication of any immediate medical attention and special treatment needed		
SECTION 5: Firefighting measures		

5.1. Extinguishing media	
Suitable extinguishing media	Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire- extinguishing media suitable for the surrounding fire.
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.

### 5.2. Special hazards arising from the substance or mixture Specific hazards None known. Hazardous combustion Thermal decomposition or combustion products may include the following substances: products Harmful gases or vapours. 5.3. Advice for firefighters Protective actions during Avoid breathing fire gases or vapours. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers firefighting exposed to flames with water until well after the fire is out. Special protective equipment Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective for firefighters clothing. Firefighter's clothing conforming to European standard EN469 (including helmets, protective boots and gloves) will provide a basic level of protection for chemical incidents. **SECTION 6: Accidental release measures** 6.1. Personal precautions, protective equipment and emergency procedures Personal precautions No specific recommendations. For personal protection, see Section 8. 6.2. Environmental precautions **Environmental precautions** Avoid discharge to the aquatic environment. 6.3. Methods and material for containment and cleaning up Methods for cleaning up Reuse or recycle products wherever possible. Collect spillage with a shovel and broom, or similar and reuse, if possible. Collect and place in suitable waste disposal containers and seal securely. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. Dispose of contents/container in accordance with national regulations. 6.4. Reference to other sections Reference to other sections For personal protection, see Section 8. For waste disposal, see Section 13. SECTION 7: Handling and storage 7.1. Precautions for safe handling Usage precautions Avoid contact with skin and eyes. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Good personal hygiene is necessary. Wash hands and contaminated areas with water and soap before leaving the work site. Read label before use. 7.2. Conditions for safe storage, including any incompatibilities Storage precautions Store in a cool, dry location. Store only in the original receptacle. Keep containers tightly closed in a well-ventilated place. Take suitable precautions when opening sealed containers, as pressure can build up during storage. Keep away from sources of heat. Keep out of the reach of children. Store away from foodstuffs. Keep away from oxidizing agents. Storage class Miscellaneous hazardous material storage. 7.3.
